1. DATE - TIME GROUP 7 Jan 68      8/0030L	2. LOCATION Bourbon, Mo.
3. SOURCE Civilian	10. CONCLUSION Other: UNRELIABLE REPORT ✓
4. NUMBER OF OBJECTS Unknown	
5. LENGTH OF OBSERVATION 25 minutes	11. BRIEF SUMMARY AND ANALYSIS The description given by the observer is confusing. There are 10 to 15 different sightings in this one report. The Observer states that she sees UFOs every night that is clear. She has a previous case of 8 Feb 67. A Mo. State Trooper investigated the sighting and stated that the observer had pointed out airplane as a UFO at that time.

14. WHAT DREW YOUR ATTENTION TO THE PHENOMENON?

After seeing them for a year I never go near a window unless I look out. I was just checking the temperature to the north bedroom window. So to see what looked like a large star in light. I watched it. It took 10 minutes before the others joined them. When they are near we say lets see know.

A. HOW DID IT FINALLY DISAPPEAR?

After all the other lights joined it. It slowly went north, then a little to the east.

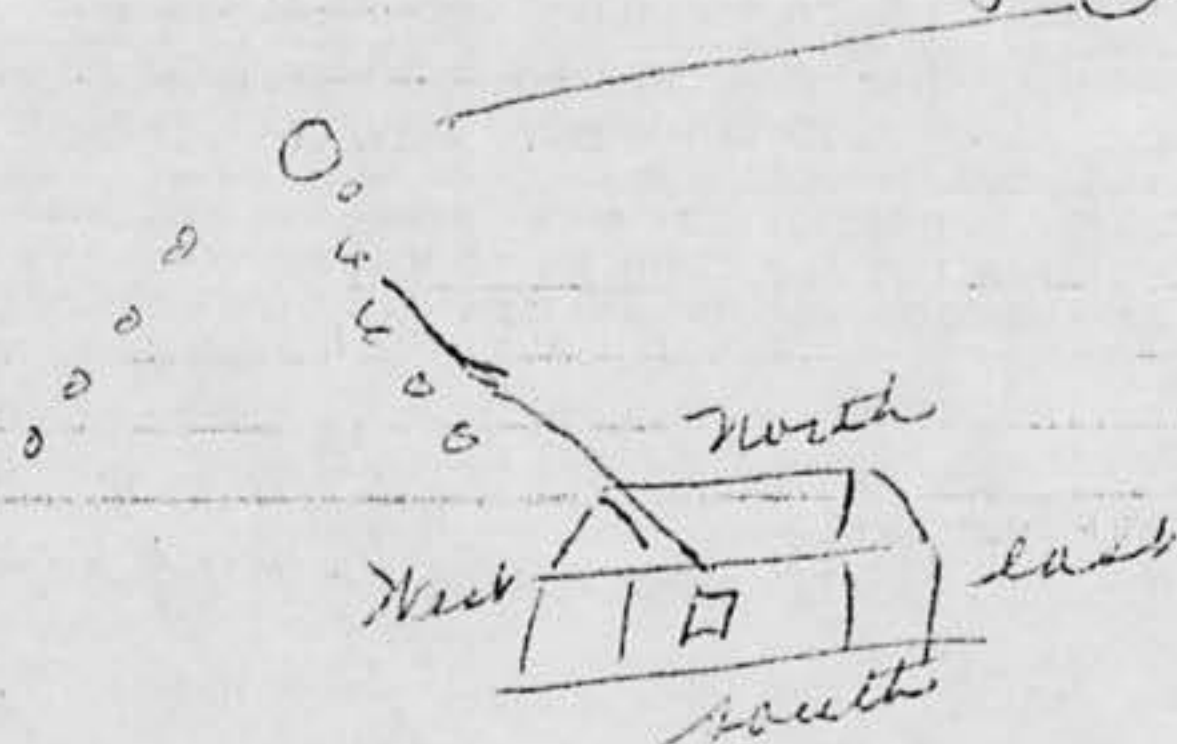

B. DID THE PHENOMENON MOVE BEHIND OR IN FRONT OF SOMETHING, LIKE A CLOUD, TREE, OR BUILDING AT ANY TIME?

☐ YES ☒ NO. IF "YES," DESCRIBE.

15. DRAW A PICTURE THAT WILL SHOW THE SHAPE OF THE PHENOMENON. INCLUDE AND LABEL ANY DETAILS THAT MIGHT HAVE APPEARED AS WINGS OR PROTRUSIONS, AND INDICATE EXHAUST OR VAPOR TRAILS. INDICATE BY AN ARROW THE DIRECTION THE PHENOMENON WAS MOVING.

At this particular morning I only saw the white light like a large star, that turns red or red-orange. The lights that came up to it were red-orange.

Our bed room window is to the north of the house I looked north and a little west. It finally went north east.

16. WHAT WAS THE ANGULAR SIZE? HOLD A MATCH AT ARM'S LENGTH IN FRONT OF A KNOWN OBJECT, SUCH AS A STREET LAMP OR THE MOON. NOTE HOW MUCH OF THE OBJECT IS COVERED BY THE HEAD OF THE MATCH. NOW IF YOU HAD BEEN ABLE TO PERFORM THIS EXPERIMENT AT THE TIME OF THE SIGHTING, ESTIMATE WHAT FRACTION OF THE PHENOMENON WOULD HAVE BEEN COVERED BY THE MATCH HEAD.

This is hard to say as they saw less than lights until it looks like a small star then gradually increase it, well to give you me ~~more~~ description It looked like and old fashion round lantern. This one however was like the biggest star you see.

17. DID YOU OBSERVE THE PHENOMENON THROUGH ANY OF THE FOLLOWING? INCLUDE INFORMATION ON MODEL, TYPE, FILTER, LENS PRESCRIPTION OR OTHER APPLICABLE DATA.			
<input checked="" type="checkbox"/>	EYEGLASSES		CAMERA VIEWER
	SUNGLASSES		BINOCULARS
	WINDSHIELD		TELESCOPE
	SIDE WINDOW OF VEHICLE		THEODOLITE
<input checked="" type="checkbox"/>	WINDOWPANE		OTHER
A. DO YOU ORDINARILY WEAR GLASSES? <input checked="" type="checkbox"/> YES <input type="checkbox"/> NO		B. DO YOU USE READING GLASSES? <input checked="" type="checkbox"/> YES <input type="checkbox"/> NO	
18. WHAT WAS YOUR IMPRESSION OF THE SPEED OF THE PHENOMENON? GIVE ESTIMATE OF SPEED <u>Very close about 20 miles per hr. it seemed</u>		19. WHAT WAS YOUR IMPRESSION OF THE DISTANCE OF THE PHENOMENON? GIVE ESTIMATE OF DISTANCE <u>Not sure about 2 miles ground level height not sure</u>	
20. IN ORDER THAT WE MAY OBTAIN AS CLEAR A PICTURE AS POSSIBLE OF WHAT YOU SAW, DESCRIBE IN YOUR OWN WORDS A COMMON OBJECT OR OBJECTS WHICH, WHEN PLACED IN THE SKY, SIMILAR TO WHERE YOU NOTED THE PHENOMENON, WOULD BEAR SOME RESEMBLANCE TO WHAT YOU SAW. DESCRIBE SIMILARITIES AND DIFFERENCES BETWEEN THE COMMON OBJECT AND WHAT YOU SAW.			
<p><i>These lights can't be compared to anything we have. When they are white. Its clear and twinkles a lot. Most times like the largest star you see.</i></p>			
21. DID YOU NOTICE ANY ODOR, NOISE, OR HEAT EMANATING FROM THE PHENOMENON OR ANY EFFECT ON YOURSELF, ANIMALS OR MACHINERY IN THE VICINITY? <input type="checkbox"/> YES <input checked="" type="checkbox"/> NO. IF "YES," DESCRIBE.			
<p><i>Not this time but other time yes. Last spring when they went across our front lawn ground level they stayed here from 4 until 5 in morning. It smelt like orange peel. Our dog just goes wild.</i></p>			
A. DID THE PHENOMENON DISTURB THE GROUND OR LEAVE ANY PHYSICAL EVIDENCE. <input type="checkbox"/> YES <input checked="" type="checkbox"/> NO. IF "YES," DESCRIBE.			
<p><i>It was too far this time as it was on Hunters ground where the little ones come up and they have seen them on several occasions. The one was over the tree tops. <del>the</del> ground is joining to the north of us.</i></p>			

27. INFORMATION WHICH YOU FEEL IS PERTINENT BUT WHICH IS NOT ADEQUATELY COVERED IN THIS QUESTIONNAIRE, ALTERNATIVELY PROVIDE A NARRATIVE EXPLANATION OF THE SIGHTING.

On Feb 8 - 1967 the time 8:15 (I'm sure as my neighbor was home from church)  
I saw a large red light dimmed behind our house to the north at the edge  
of the clearing, about a city block from our house at ground level. I thought  
at first it was a hunter but the light looked as large as the old car  
headlights and couldn't imagine why he was carrying such a big  
one. I watched looking through the bed room window the sky looked  
funny - It drew my attention then it got brighter and brighter  
until our whole yard looked like day. The red light backed into  
the woods and the one above our home gradually went out. This  
night our dog nearly tore the house apart and we didn't hear  
anything. It went on night after night I would see it come in  
from the east either white or orange red. One night my sister  
and her husband were here from St. Louis it came in red <sup>7:30 pm</sup> looked  
like the sun it goes back of the trees below tree tops and three  
little balls fly off I told Mr. [redacted] they look like they are  
breathing. So many try to say house lights or car lights where they  
are no roads and houses, as I knew Mr. [redacted] was anxious to see  
them. There were [redacted] his wife and son, my husband & I, this  
was spring, date I don't remember. I thought I gave them to Mr.  
[redacted]. When they came in there was one to the south west  
in sky. They said is that one I said Mr. [redacted] said that's the  
looming star. (His wife runs our paper) and hour later they said are  
you sure I said no. That's what I was told we watched it and it  
went down behind a house of an old person to the south west  
of us and spun like a top. This was the only one I saw spin.

They were in [redacted] garden to the west where we  
did see signs of burnt rubbark tops. They ran across our front  
lawn came from west to east crossed highway C and into  
[redacted] woods that has a pond. They mentioned you know many  
I counted 12 ground level & low in the sky that night.  
This night in the garden they worked back and forth side to side  
then up and down. They kept shooting white light out in front  
in a shape. This I was told by some men they could  
draw something from [redacted] in such in Feb.

On May 15th at 8:25 AM my dog again had a fit & lay on the back & head  
trembling & the light about as long as a snap. They were about 3 feet  
from the ground but went about 150 feet and head out, the same as  
they had made my neighbor to the east got into glass and could see further  
he went in and said "Ouch" the light again. They were ground level  
and were from just off Highway C.

They came this fall about 5:30 but near a little later in the morning  
at 7:00 AM. My husband saw one called me. This was the 14th he went west  
the 15th at 6:00 AM. He & I went west they thought were a glass  
falling and said just was with like a humming the back looked like a humming  
than the bottom blew up. The called through a Highway Patrol. The Patrol  
said he was about 1000 ft in the air and they must have seen the same.  
Apr 16th there was one at 7:00 AM just again with a second from  
Hutchinson to the west of the second Highway C. another there at 6:30  
Apr 17th at 6 PM one at [redacted] the on Hutchinson again & this was the  
west of [redacted] in front behind [redacted] house.

The great spring my son in law Jim liked all these. Said one just west  
behind the house to our south. That is a road to the east of the [redacted] the  
took the car west down the hill and up the other to where a house been before  
the town my daughter had a fit as when he was down to the house just west  
are another with light behind him when he got to the top of the hill the  
light that followed behind went to the north & came to the south. This was  
daughter & I saw but my son-in-law didn't as it would have been  
about the car for us to see it. One night the spring down and in back  
over the large while they at coming not too far above the house  
to east. When through our house and the spring the Hutchinson  
our house at about 10:00 PM when we just before 10:00 PM  
a good look. This was night.

Apr 18th there are good but upper  
light were about and behind the [redacted] one with above and with the  
[redacted] the bottom is the same that go small look. This was  
the the was down out of the tree and [redacted] and down from  
house from both sides the middle light [redacted] the great [redacted]  
line of white light ground level on each of a building of Hutchinson  
to the west of them [redacted] and [redacted] back in the [redacted] then  
out [redacted] the [redacted] the [redacted] like the  
building. Other were a stick at top with light on top as  
big as about a quarter. The other [redacted] and [redacted] in back  
after [redacted] light again and went with [redacted]; [redacted] [redacted] [redacted]

## MISSOURI STATE HIGHWAY PATROL

Cuba, MissouriMarch 7, 1967

Subject: Report of unidentified flying objects, Crawford County, Missouri

To : Commanding Officer, Troop I  
Missouri State Highway Patrol  
Rolla, Missouri

1. On March 5, 1967, Troop I Rolla advised reporting officer that they had received a letter from a Mrs. [redacted] who lives about two and one-half miles northwest of Bourbon, Missouri, [redacted]. She stated in the letter that she had been seeing lights in the woods behind her house and across the road and she seemed to think that they were unidentified flying objects.
2. Reporting officer contacted Mrs. [redacted] the afternoon of March 5, 1967, and she talked for sometime about the lights. She showed this officer where they had been seen and just what they did. She stated the first time she saw them they landed in the woods behind her house. She stated that there was one about the size of a dinner plate and after the one landed several smaller ones would leave it. The small ones were about the size of a baseball. The small ones would then go back to the large one and they would leave. The first time they were seen was February 8, 1967, and she stated she had seen them almost every night since. She also stated that several other people had seen them, including the children of [redacted] who live directly behind her. This officer contacted the [redacted] family and talked with the six children ranging from five to seventeen years old. They stated they were carrying out some trash one afternoon late and saw this object about the size of a car coming towards them from out of the sky. They all dropped their trash and ran into the house. They have not seen any more.
3. The night of March 6, 1967, this officer went back to the home of Mrs. [redacted] and observed the area for about two hours. During this time officer observed eight airplanes, all flying from east to west or west to east. They have flashing red, green and white lights. Mrs. [redacted] pointed to one and said, "There is one now."
4. It is the opinion of this officer that Mrs. [redacted] lives in a flight path and what she is seeing is airplanes. When the airplanes are off some distance, they appear to be coming through the woods. Mrs. [redacted] is getting up in years and since she has been watching this for so long, this officer feels that her imagination is contributing to some of the things she sees.

or 2 and later her daughter and sister.  
They were here a lot. Mr & Mrs [redacted]  
Mr & Mrs [redacted] son. Mr & Mrs [redacted]  
from their home. Mr & Mrs [redacted] 2 of  
their friends from St. Louis Mo. (This is my sister.)

Mr & Mrs W. [redacted], Mrs Mrs [redacted]  
D & M [redacted] seen them once.  
Come from his yard cross the road to field across from  
him. I saw it one night down the road in front  
the road runs south. One was over Mr [redacted]  
head flooded it like it did once on 2 occasions  
then the one with 2 lights ran across the road.  
ground level.

Tonight Jan 10, 1968 6:30 P M to the north west  
the sky was cloudy I seen one star light or whatever  
and knew it was one it went north west a  
short distance then one appeared ground level the  
red-orange one worked from west end of Mrs  
[redacted] yard toward me to her mail box. I  
watched it 15 minutes then it went out so  
couldn't follow it. This is the first time I seen

them venture out on snow covered ground.  
This one I seen several times through trees then one  
night I was standing on back porch I think I sent you  
that letter. [redacted] the bag part lit to orange red  
the streaks in back a clear white the front not sure as  
it was too lit up. This will be it, hope you  
can understand. I'm not so good at describing.

## SIGHTING OF UNIDENTIFIED PHENOMENA QUESTIONNAIRE

BUDGET BUREAU APPROVAL  
NUMBER 21-R258

THIS QUESTIONNAIRE HAS BEEN PREPARED SO THAT YOU CAN GIVE THE U.S. AIR FORCE AS MUCH INFORMATION AS POSSIBLE CONCERNING THE UNIDENTIFIED PHENOMENON THAT YOU HAVE OBSERVED. PLEASE TRY TO ANSWER ALL OF THE QUESTIONS. THE INFORMATION YOU GIVE WILL BE USED FOR RESEARCH PURPOSES. YOUR NAME WILL NOT BE USED IN CONNECTION WITH ANY OF YOUR STATEMENTS OR CONCLUSIONS WITHOUT YOUR PERMISSION. RETURN TO AIR FORCE BASE INVESTIGATOR FOR FORWARDING TO FTD (TDETR), WRIGHT-PATTERSON AFB, OHIO 45433, IAW AFR 80-17. (IF ADDITIONAL SHEETS ARE NEEDED FOR NARRATIVE OR SKETCHES ATTACH SECURELY TO THIS FORM OR ANNOTATE WITH YOUR NAME FOR IDENTIFICATION.)

1. WHEN DID YOU SEE THE PHENOMENON?

Last one was Sunday DAY Jan 7 MONTH Jan YEAR 1968

2. WHAT TIME DID YOU FIRST SIGHT THE PHENOMENON?

HOUR 6 MINUTES 30 ☒ A.M. ☐ P.M.

3. WHAT TIME DID YOU LAST SIGHT THE PHENOMENON?

HOUR 6 MINUTES 55 ☒ A.M. ☐ P.M.

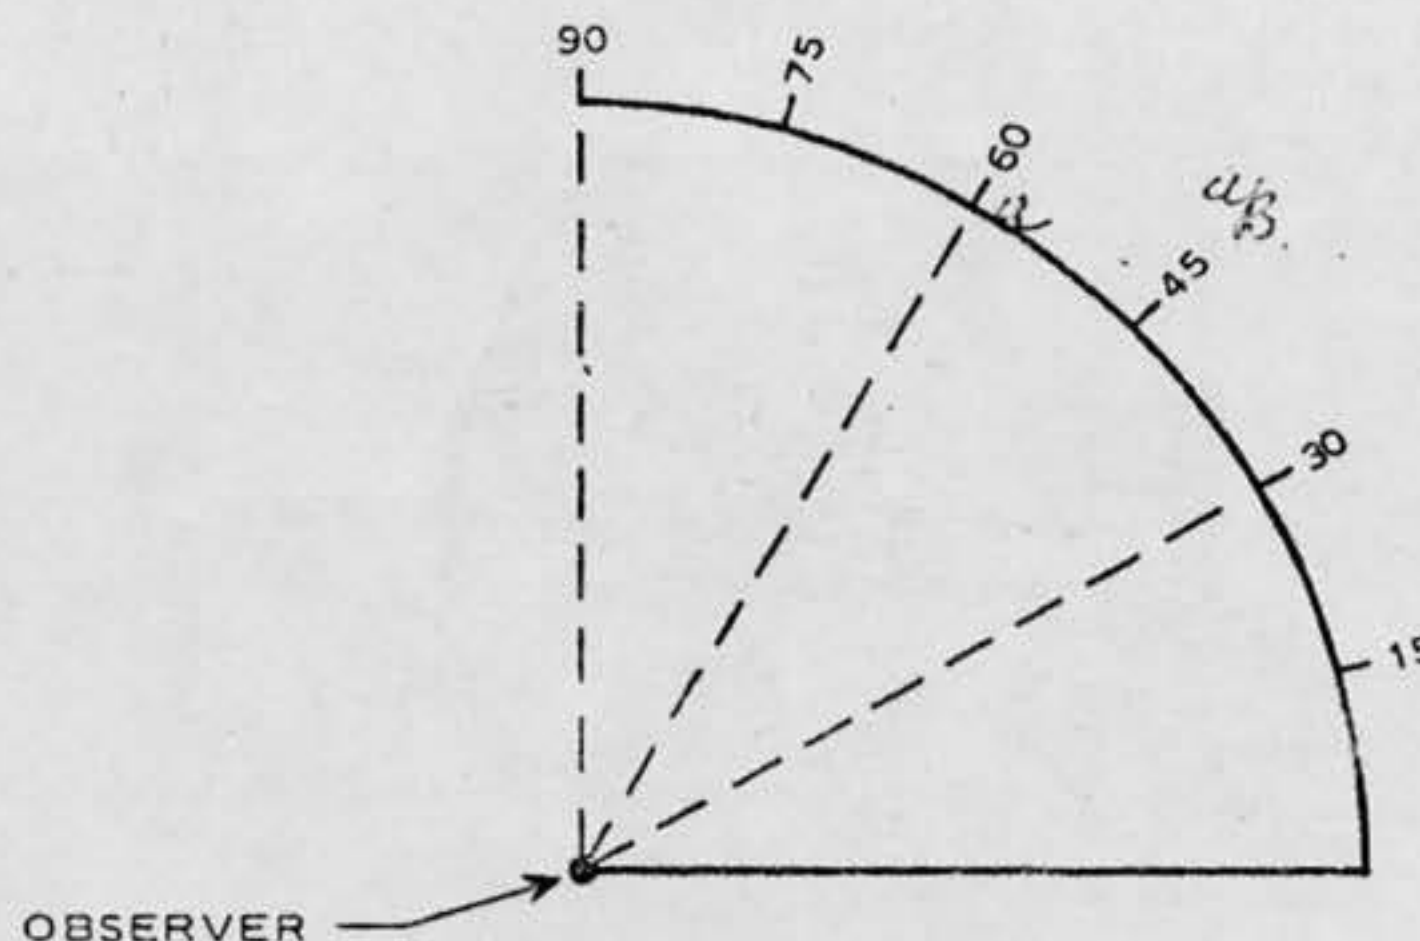

4. TIME/ZONE

☐ DAYLIGHT SAVINGS☐ STANDARD☐ EASTERN☒ CENTRAL☐ MOUNTAIN☐ PACIFIC☐ OTHER

5. WHERE WERE YOU WHEN YOU SAW THE PHENOMENON? IF IN CITY, GIVE THE NEAREST STREET ADDRESS AND INDICATE ON A HAND DRAWN MAP WHERE YOU WERE STANDING WITH REFERENCE TO THE ADDRESS. IF IN THE COUNTRY, IDENTIFY THE HIGHWAY YOU WERE ON OR NEAR AND TRY TO FIX A DISTANCE AND DIRECTION FROM SOME RECOGNIZABLE LANDMARK.

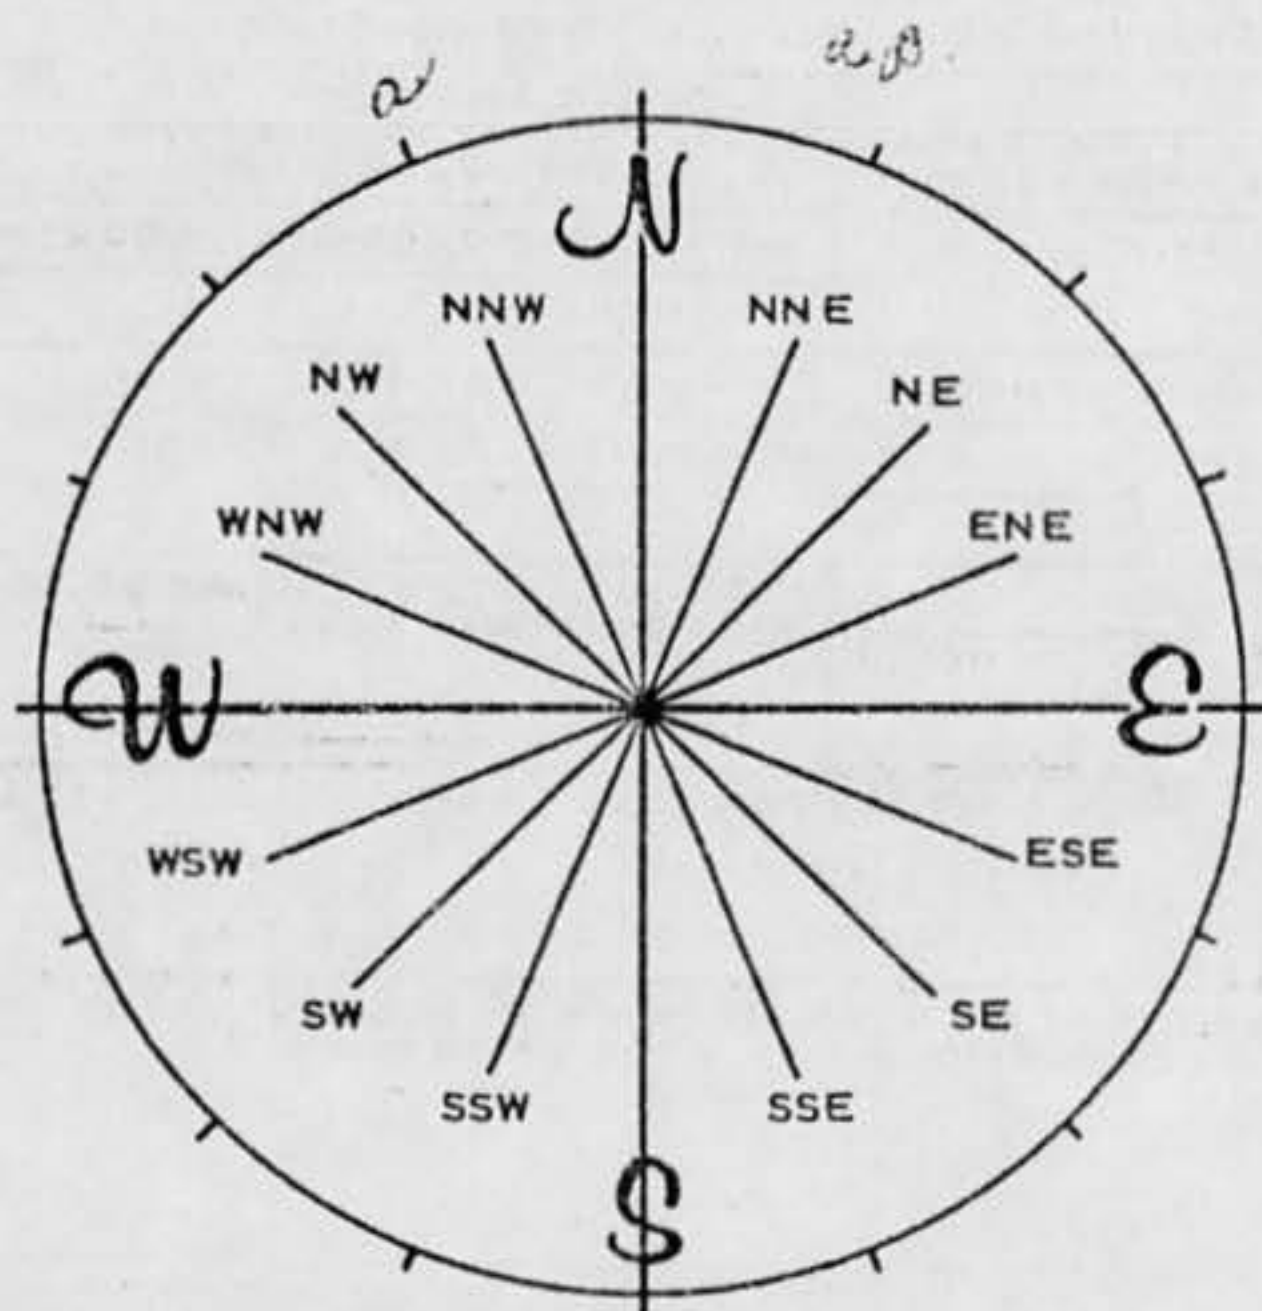

I was checking the temperature at our back bed room window to the north and a little west. It looked like a big star but it was the only one and was light out side. It was just above the tree tops. The native then all summer as I knew it had to be connected with the others. About 6:40 the orange red ones came up from the ground in line on both sides when I counted 6 one on the right got out of line went clear over the top came down in the middle. Nothing there and I lost count but there were many more. At 6:50 or 55 I'm not sure I went up the exact time it was before 7 they took off and went north then north east.

6. IMAGINE YOU ARE AT THE POINT SHOWN IN THE SKETCH, PLACE AN "A" ON THE CURVED LINE TO SHOW HOW HIGH THE PHENOMENON WAS ABOVE THE HORIZON, OR SKYLINE, WHEN FIRST SEEN. PLACE A "B" ON THE SAME CURVED LINE TO SHOW HOW HIGH ABOVE THE HORIZON THE PHENOMENON WAS WHEN LAST SEEN.

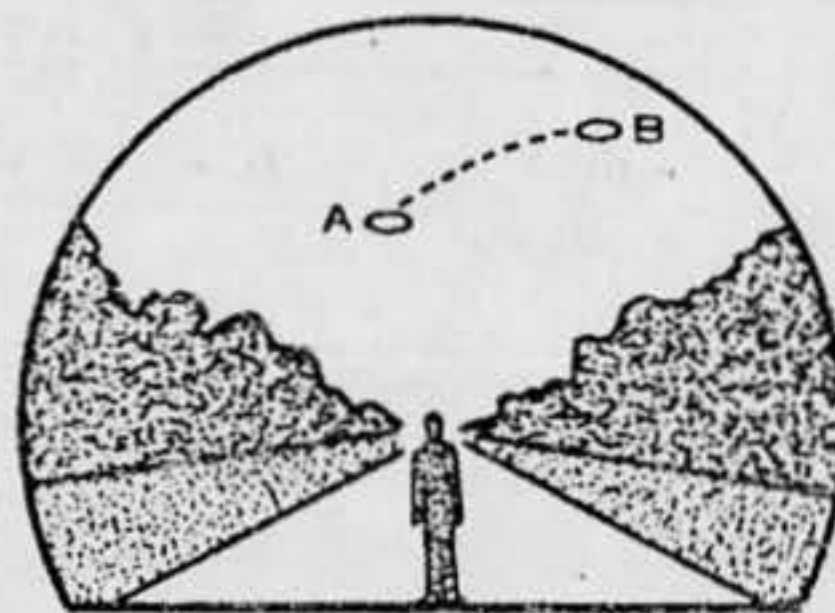

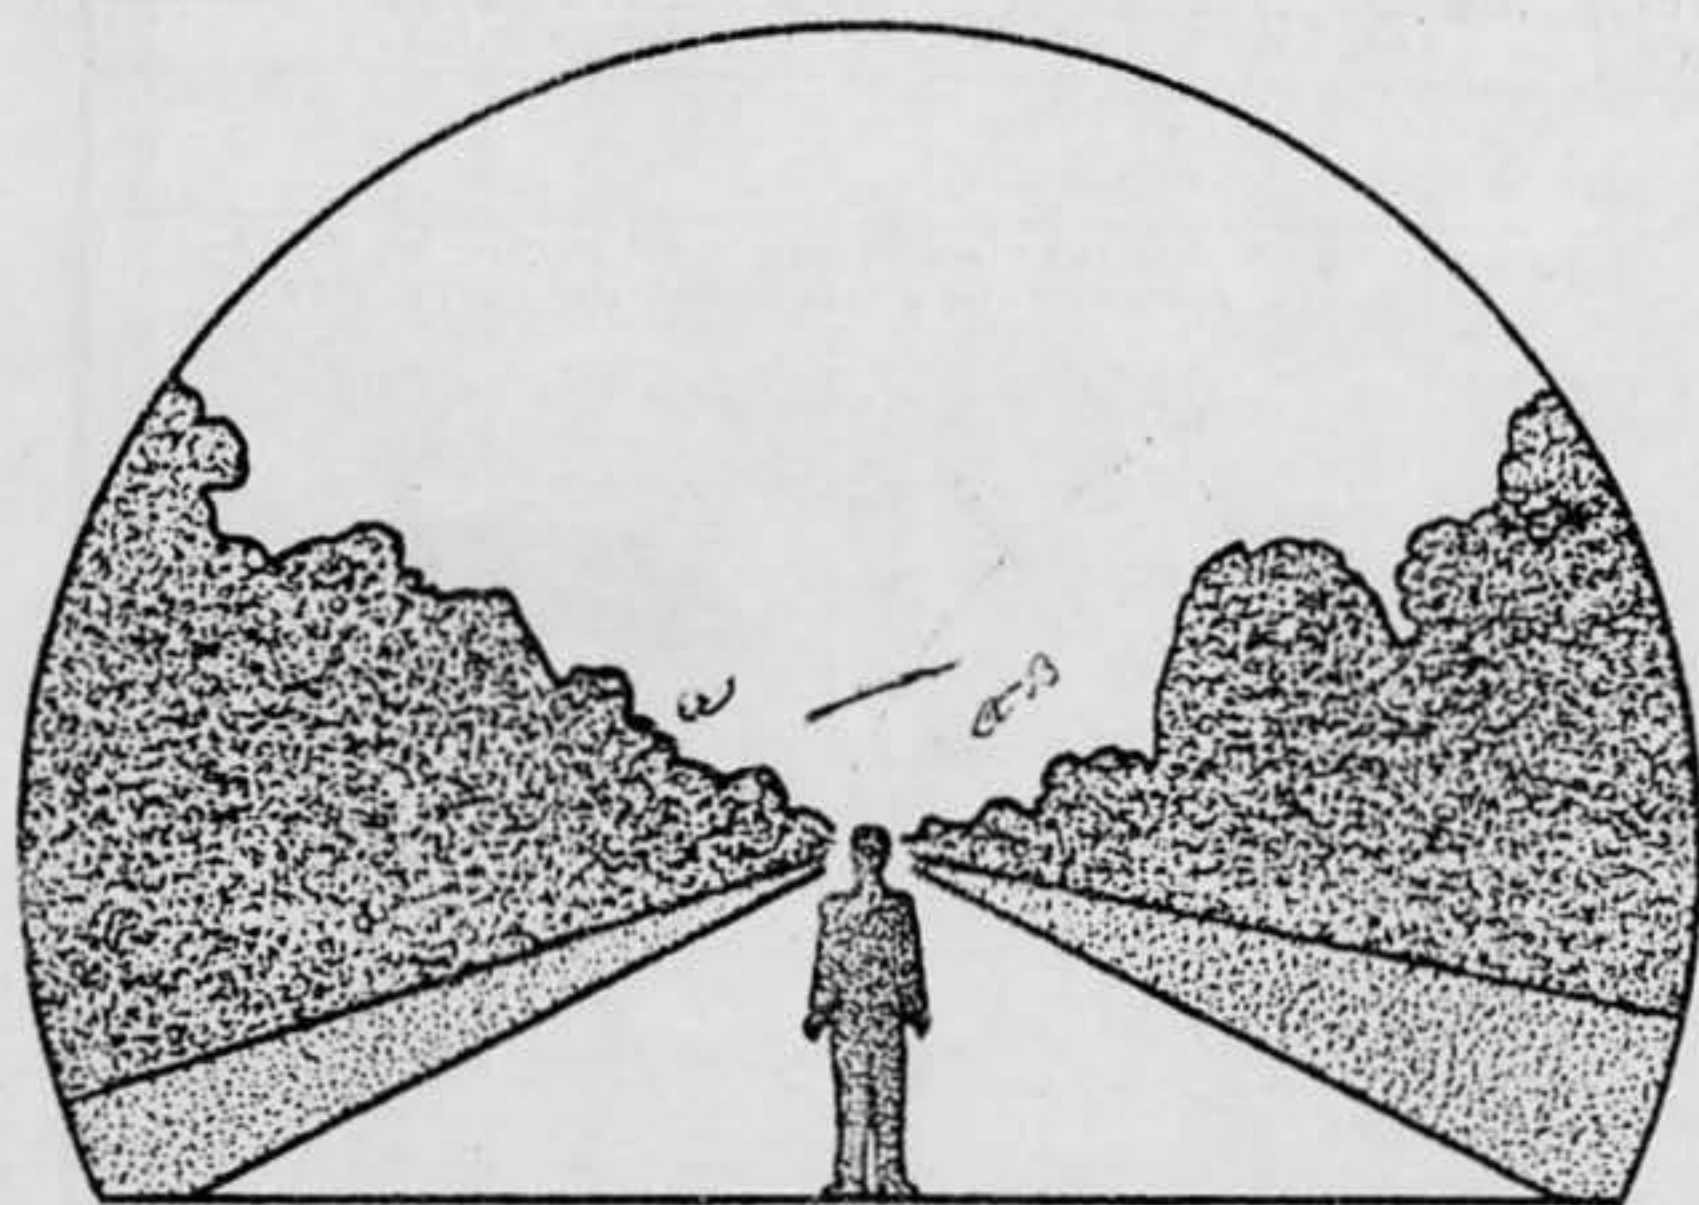

6A. NOW IMAGINE YOU ARE AT THE CENTER OF THE COMPASS ROSE. PLACE AN "A" ON THE COMPASS TO INDICATE THE DIRECTION TO THE PHENOMENON WHEN FIRST SEEN. PLACE A "B" ON THE COMPASS TO INDICATE THE DIRECTION TO THE PHENOMENON WHEN LAST SEEN.

7. IN THE SKETCH BELOW, PLACE AN "A" AT THE POSITION OF THE PHENOMENON WHEN FIRST SEEN, AND A "B" AT THE POSITION OF THE PHENOMENON WHEN LAST SEEN. CONNECT THE "A" AND "B" WITH A LINE TO APPROXIMATE THE MOVEMENT OF THE PHENOMENON BETWEEN "A" AND "B". THAT IS, SCHEMATICALLY SHOW WHETHER THE MOVEMENT APPEARED TO BE STRAIGHT, CURVED OR ZIG-ZAG. REFER TO SMALLER SKETCH AS AN EXAMPLE OF HOW TO COMPLETE THE LARGER SKETCH.

8. WHERE WERE YOU WHEN YOU SAW THE PHENOMENON? (Check appropriate blocks.)

10. IF THERE WERE MORE THAN ONE PHENOMENON, HOW MANY WERE THERE? DRAW A PICTURE TO SHOW HOW THEY WERE ARRANGED. DID THIS ARRANGEMENT CHANGE DURING THE SIGHTING?

*It is like a large twinkling star. There were 2 lines of red orange smaller lights came from the ground when one got out of line and went over the top. I had heard but they were a bunch. One Sunday night me, my husband and I saw this  to the north-east. I said that after a time to you there red orange balls as big as grapefruit leaves both ends at time and circles each last. I saw some that was that was it was a white and red light on top.*

E. SPECIFY THE MAJOR SOURCE OF ILLUMINATION PRESENT DURING THE SIGHTING, SUCH AS THE SUN, HEADLIGHTS OR STREET LAMP, ETC. FOR TERRESTRIAL ILLUMINATION, SPECIFY DISTANCE TO LIGHT SOURCE.

*It was light as you could make out everything but it, it was a city block to our woods from the house, it was straight the woods to the north.*

12. GIVE A BRIEF DESCRIPTION OF THE PHENOMENON, INDICATING WHETHER IT APPEARED DARK OR LIGHT, WHETHER IT REFLECTED LIGHT OR WAS SELF-LUMINOUS AND WHAT COLORS YOU NOTICED. DESCRIBE YOUR IMPRESSION OF WHETHER IT WAS SOLID OR TRANSPARENT, WHETHER EDGES WERE SHARP OR FUZZY. DESCRIBE THE SHAPE OR INDICATE IF IT APPEARED AS A POINT OF LIGHT. INDICATE COMPARISONS WITH OTHER OBSERVED OBJECTS, LIKE STARS, A LIGHT OR OTHER OBJECT IN YOUR FIELD OF VIEW.

*All I ever see is lights. It goes from red to amber then white and then looks like it goes out before it starts over. My brother-in-law has good binoculars this past summer we checked them. It turns a green instead of going out. This you can't see with the naked eye. My vision is good at distance so I need glasses to read.*
